

AEV

IP CODEC

AEV CODEC Quick Guide

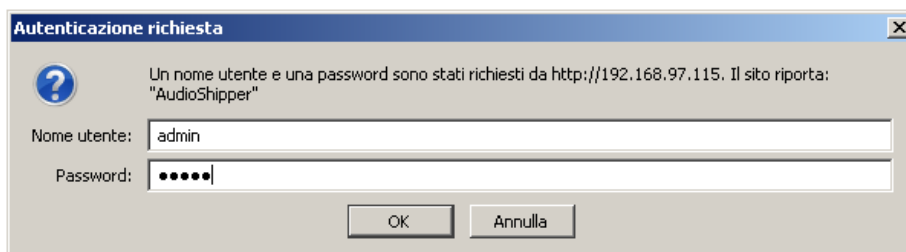

1. Configure your PC network settings with the IP address 192.168.120.1 (subnet mask: 255.255.255.0, gateway: empty)

2. Connect the PC with a cross cable to the AEV Codec.
3. Open your browser and type the NS1-X rescue IP address 192.168.120.120

4. Type the default user ID and password ("admin", "admin")

5. The MAIN page of internal web server will appear. In this page you can see all the configuration parameters of your AEV Codec.
